

SYSTEMS CONSULTANT CERTIFICATION PROCESS

Introduction

As an Academy-certified Systems Consultant, you will be in a position of public trust. You will be addressing the systems within which people operate such as social systems within frameworks of business, education, government, churches, clubs, etc. Your knowledge and experience become transformational tools that lead to positive change in individuals, relationships and in the collective consciousness. As a Certified Consultant, you may charge for the professional services you perform, and you may also receive referrals from the Academy if desired. You will also become eligible to become a sponsor to future Consultant applicants, if you choose. At your request, members of the Academy are available to assist in supporting you as you progress into deeper levels of expertise and potentialization.

In order to receive a *Systems Consultant Certificate* from the International Academy of Holodynamics, the following requirements must be met:

6. Be skilled at coaching others to reach the potential of their relationships, which may include tracking, relationship coaching and the relive/prelive process.
7. Advocate the extension of this process into the larger community through *potentialization*, following the progression of the six stages of development.
8. Demonstrate mastery of the academic information and the skills necessary to perform professionally as a *Systems Consultant*.

Prior to receiving a Systems Consultant Certificate, each applicant must be able to demonstrate the ability to track multidimensional holodynes, shift fields of consciousness and function as a professional Field Shifting Consultant. 1. Submit the Systems Consultant Application and application fee of \$3000.
2. Apply for a Sponsor who is already certified as a *Systems Consultant* who will supervise your progress through the certification process. The sponsor will answer your questions, support you where needed, observe your abilities to transform system Holodynes and will review all of your documentation in the applicant process. They will be responsible for recommending your competence to the Academy for certification.
3. Systems Consultant Declaration Form
4. Reports as outlined above
5. Completed Verification Forms for three project participants
6. Completed Systems Consultant Exam

All forms and reports are to be submitted to your Sponsor, whose responsibility it is to mentor you through the experiential process by answering questions, making suggestions or recommendations, and generally monitoring your progress as it relates to building coaching skills.

Upon completion, the Sponsor observations, along with the required forms will be submitted to the Academy as a part of your certification requirements.

It is necessary that both the Sponsor and the Systems Consultant applicant maintain the detailed records outlined in these requirements in the unlikely event that a challenge to their competency would occur from an outside source. In this case, the detailed records would serve to support your qualifications.
